

Reference for Andrea Fabrizi

Andrea Fabrizi is an exceptional programmer and professional. He is exceptional in terms of excellence but also in terms of uniqueness—it is difficult to find professionals even ten years his senior that encompass his many fine qualities:

- ★ He is always punctual to meetings, be they person to person or conferences via the web;
- ★ He is a good listener;
- ★ He takes initiative and is not afraid to suggest alternative solutions to the tasks at hand;
- ★ He executes his work in a timely fashion;
- ★ He is thorough in testing and debugging his work;

The result of these combined characteristics is dependability. You can always count on Andrea to achieve expectations, if not surpass them.
